GUS CRYSTAL
FACTORY

Gus Crystal Factory named in honor of its founder, the merchant Akim Maltsov, is a unique Russian factory of hand-made crystal glass. History of creation here of real masterpieces of decorative and applied art has counted 262 years.

Each product is still done manually and mainly in a single copy.

The secrets of the old masters at the factory are carefully preserved, passed from generation to generation and developed taking into account the modern trends.

Modern technologies and the talent of factory specialists make it possible to embody the most creative ideas in crystal. Table sets, vases, works of art, interior objects are made of crystal decorated with cutting, engraving or painting. Currently palette includes more than 20 different colors of crystals.

The products of the Gus Crystal Factory are widely known and in demand. Products created at the plant, as well as their authors, are still awarded the highest awards of prestigious exhibitions.
